Paris, July 19th, 2018 - Bigben and Atari® announce today their association to distribute in Europe and Australia the new game RollerCoaster Tycoon® Adventures for Nintendo Switch, a title that will be available for the end of the year holidays 2018.

This agreement is fully in line with Atari Games' strategy to focus on game production and online operations, and to partner with leading partners in the physical distribution of games. Bigben has a large distribution force throughout Europe, with a decisive direct presence in key European territories. Atari will be the Publisher of the game, Bigben can also be co-publisher in some cases.

RollerCoaster Tycoon Adventures for Nintendo Switch is the new version of this famous amusement park simulation game. Developed by NVizzio, developer of the RollerCoaster Tycoon Touch mobile version, it includes all the features of the best RollerCoaster Tycoon games, adapted to make the most of all the possibilities of this console.

The agreement also targets the physical distribution of other games on consoles, including Rollercoaster Tycoon Joyride®, the version of the game on PlayStation 4 with a virtual reality mode that will also be released in 2018.

Chris Sawyer and Atari have been working together for almost 20 years and this new game illustrates the continuity of their partnership. Since the late 90s, Atari has released many games based on the RollerCoaster Tycoon license. It is one of the world's best-selling franchises in the history of PC gaming, with more than 14 million units sold. The franchise is also experiencing a strong craze on mobile platforms: RollerCoaster Tycoon 4M, released in April 2014, has exceeded more than 20 million downloads; RollerCoaster Tycoon Touch, released in February 2017, is already more than 15 million downloads. From the first Deluxe Edition to the Expansion Packs, every RollerCoaster Tycoon game has been built around the theme of creating, managing and strategically planning even more daring and fun theme parks.
