

Bigben will publish the video game adaptation of *The Voice*

Lesquin, May 27th, 2016 – Bigben, the video game publisher and distributor, is pleased to announce that they have signed an agreement with Voxler, the studio currently developing the official video game based on The Voice, the wildly successful TV format currently broadcasted in 180 countries around the world. The game will release on consoles end of November 2016 in several major territories.

In this official game, players will experience the thrill of being a contestant on the talent competition during the electrifying *Blind Auditions*, *the pure adrenaline of the Battles*, *all the way to the spectacular final*. The game includes thirty top chart tracks to select from to impress the Coaches and can be enjoyed single player or with a group of friends!

With over 10 years of experience in the development of karaoke games, Voxler is the studio of choice for adapting the well-known and successful The Voice brand. Their patented voice recognition system judges the quality of player performances with unequalled precision for both the accuracy of the notes and the rhythm.

"Publishing The Voice video game expands Bigben's publishing strategy," added Alain Falc, CEO of Bigben. "With over 500 million viewers around the world, no doubt this video game adaptation will satisfy a wide audience."

"We are very happy to be working with Bigben on this ambitious project, and we will bring all of our experience and passion to reproduce the experience of The Voice in a video game as faithfully as possible," Nicolas Delorme, CEO of Voxler, concluded.
